

Dear Faculty Member,

Thank you for your interest in becoming a member of the Program in Biological Chemistry. In order to submit a complete application you will need to follow the Faculty Applicant Guidelines. The "Faculty Applicant Guidelines" outlines the different letters and documents that are needed for your application; make sure you read through and submit the correct items for your faculty appointment description. Please note as explained in the guidelines, a letter from the department chair(s) is required for various guarantees and, in some cases, a letter from the faculty of the participating department.

All applications should be made directly to the Program Director (Wes Sundquist until 6/30/09) and sent to the Program Office (1400 EIHG). The Program's Executive Committee will evaluate your application. If there are any questions regarding these requirements or your current membership status, please do not hesitate to contact me at 585-5402 or wes@biochem.utah.edu.

Sincerely,

Wesley Sundquist
Director, Biological Chemistry Program
